Twelve songs specially composed for EFL learners with comprehension, vocabulary and grammar practice created using the Authoring Suite. They are written and sung by Christopher Jones with backing provided by Graham Preskett.

The topics cover a variety of themes close to the heart of young adults – having no money, falling in love, going to parties, being away from home, loneliness, ambitions, having pets, getting things for a good price, going to the dentist and more.

You've got a 402 with electric windows  
And you bought it new.  
It'll do a hundred miles an hour  
And there's lots of power for acceleration.

**Chorus** Did you say that's not good enough for you?  
Well I don't know what you mean.  
Because it looks very grand  
From where I'm standing,

In most exercises the Help pages offer copious help notes on grammar and also where appropriate give the full text of the songs.
