Upgrade offer

Registered users of Eurocentres CALL for English Library Disks (for DOS) can claim a discount which will be calculated on the number of Library Disk licences they have previously purchased (of whatever title).

The original DOS versions of the Call for English Library disks have been discontinued since they are subject to failure when used under Windows on fast Pentium II computers.

The Eurocentres CALL Library for English

Available now for Windows!

The Eurocentres CALL Library comprises the best of the popular Eurocentres CALL for English Library Disks upgraded and converted for Windows™, using the power of the Wida Authoring Suite. Altogether the Library comprises over 750 CALL exercises, divided into ten volumes.

In each volume you will find a rich selection of practice activities created for a category of learning objective (such as Grammar, Vocabulary) at a particular level. The activities are grouped into modules and units in a user-friendly way and according to easily recognised categories. Typically, the activities in one volume will provide between 30 and 50 hours of study time.

Each volume is supplied on CD-ROM with easy installation instructions and documentation.
